

Eng: Hussein Saraireh

Executive Profile

Strategic and results-driven Chief Technology Officer with over 40 years of experience leading large-scale broadcast, media, and digital transformation initiatives across the MENA region.

Proven track record of building and scaling high-performance engineering organizations, launching tier-1 broadcast networks, and delivering complex, multi-million-dollar technology programs.

Recognized for combining deep technical expertise with executive leadership to modernize broadcast ecosystems, drive innovation (OTT, IP, cloud-ready workflows), and align technology strategy with business growth and operational excellence.

Core Competencies

- Technology Strategy & Digital Transformation.
- Broadcast & Media Infrastructure (IP, OTT, Cloud).
- Executive Leadership & Team Building.
- Large-Scale Program & Project Delivery.
- Engineering Operations & Governance.
- Vendor Management & System Integration.
- Budgeting, CAPEX/OPEX Optimization.
- Broadcast Operations (MCR, Studios, Transmission).
- Innovation, Automation & Emerging Technologies.

Professional Experience

2026 – Present | PrimeAxis Global Broadcast Consulting Founder

- Advising media organizations on technology strategy, modernization, and digital transformation.
- Supporting broadcast and OTT platform development, system upgrades, and operational optimization.
- Engaged in multiple regional consultancy assignments across MENA (details available upon request).

2018 – 2025 | Chief Technology Officer (CTO), AlMamlaka TV News Channel [Jordan]

- Defined and executed enterprise-wide technology strategy for a national 24/7 news broadcaster.
- Built and led multidisciplinary engineering teams across broadcast, IT, and digital platforms.
- Directed full lifecycle of broadcast operations including studios, MCR, transmission, and OTT delivery.
- Led digital transformation initiatives, introducing modern production workflows and scalable infrastructure.
- Established governance frameworks, operational standards, and performance KPIs across engineering.

- Managed annual budgets and capital investments aligned with strategic objectives.
- Partnered with executive leadership to support organizational growth and innovation.
- Built and led multidisciplinary engineering & operation teams (140) across broadcast, IT, and operation.
- Managed annual CAPEX/OPEX budgets of approximately \$5M.
- Ensured high availability broadcast operations (99.9%+ uptime).

**2016 – 2018 | Project Manager – Channel Launch (PMO) | AlMamlaka TV
[Jordan]**

- Led end-to-end delivery of one of Jordan's largest broadcast projects.
- Managed construction, studios, technical infrastructure, and system integration.
- Coordinated international vendors to deploy state-of-the-art broadcast and OTT systems.
- Delivered project on time, within scope, and to international standards.

**2014 – 2018 | Founder & Managing Director | Gulf Broadcast Solutions
[Dubai, UAE]**

- Established consultancy delivering broadcast and media projects across MENA.
- Led major channel launch projects including CNBC Arabia HD channel (Doha).
- Designed full broadcast ecosystems including playout, storage, graphics, and IT infrastructure.
- Managed system integration, commissioning, and vendor coordination.

**2010 – 2014 | Director of Engineering | Al Watan TV
[Kuwait]**

- Led all engineering and technical operations for national broadcaster.
- Directed technology upgrades, expansion, and operational optimization.
- Managed budgets, procurement, and lifecycle of broadcast systems.
- Built and developed high-performing engineering teams.

2009 – 2010 | Project Manager & Technical Consultant (Multiple Projects)

- **Jordan Media Institute (JMI)**
[Jordan]
- **Falasteen Al Ghad Satellite Channel (PTTV)**
[Ramallah]

- Led multiple broadcast and media projects including channel launch initiatives.
- Designed and implemented broadcast and IT systems for JMI.
- Led full lifecycle delivery of PTTV channel launch including system design, vendor coordination, and deployment.
- Established technical standards, recruited teams, and ensured operational readiness.

**2007 – 2009 | Director of Engineering & Operations | aTV Channel
[Jordan]**

- Led channel launch project.
- Led and managed the Broadcast Engineering and Technical Operations teams, ensuring efficient workflows and uninterrupted on-air performance.
- Oversaw all technical and operational support for programming production.
- Implemented modern broadcast systems and ensured operational continuity.
- Contributed to the channel's annual business planning, including budgeting, forecasting, and resource allocation.

**2006 – 2007 | Head of Engineering | Al Jazeera English
[Qatar]**

- Supported global channel launch with full engineering leadership.
- Oversaw all technical aspects of programming production.
- Planned, designed, and executed critical technological systems.
- Developed and enforced unified IT and transmission standards across the organization.
- Led recruitment, onboarding, and performance management of engineering staff.

**2004 – 2006 | Head of Engineering | CNBC Arabia
[Dubai, UAE]**

- Led and managed the Broadcast Engineering and Technical Operations teams across CNBC Arabia and its regional bureaus.
- Oversaw the setup of seven international bureaus—Jeddah, Riyadh, Qatar, Bahrain, Kuwait, Cairo, and Abu Dhab.
- Played a key role in the launch of CNBC Pakistan, including the establishment of studios and uplink facilities in Islamabad and Lahore.
- Led recruitment, development, and performance management of engineering teams across multiple countries.
- Managed departmental budgets, technology planning, system design.

**2000- 2004 | Engineering and Operation Manager | Jordan Media City (JMC)
[Jordan]**

- Led JMC launch project.
- Managed large-scale broadcast facility supporting 60+ channels.
- Led teleport, transmission, and technical infrastructure operations.

**1996- 2000 | Senior Broadcast Engineer.
Abu-Dhabi News Center [UAE]**

- Supported newsroom systems, editing platforms, and IT infrastructure.

**1983- 1996 | Broadcast Engineer & IT Manager.
Jordan Radio and Television [Jordan]**

- Managed broadcast systems, MCR operations, and newsroom technologies.

Selected Achievements

- Led the successful launch of 8+ broadcast channels across MENA, including AlMamlaka TV and Al Jazeera English.
- Delivered one of Jordan's largest media infrastructure projects, implementing full digital and OTT-enabled broadcast ecosystem.
- Built and scaled engineering teams across multiple countries (Jordan, UAE, Qatar, Kuwait).
- Directed implementation of end-to-end broadcast workflows from ingest to multi-platform distribution.
- Enabled adoption of modern IP-based and OTT-ready broadcast architectures.
