

PrimeAxis Global

Broadcast Consulting

Profile 2026

Shaping the Future of Broadcast

Executive Summary

PrimeAxis Global for Broadcast Consulting is a specialized broadcast and media engineering consultancy delivering vendor-neutral advisory, project management, and technology transformation services across the MENA region.

Founded in 2026 in Dubai, the company builds on more than 40 years of hands-on broadcast engineering and leadership experience of its founder.

Eng. Hussein Saraireh, who has successfully delivered and launched major television platforms across the region.

PrimeAxis Global for Broadcast Consulting supports broadcasters, government media entities, and content organizations in designing, modernizing, and future-proofing their broadcast ecosystems in alignment with international standards.

The company is currently expanding its regional footprint with plans to open an office in Amman, Jordan in 2026.

Technical Expertise

Core Focus

- Broadcast transformation
- Greenfield TV channel launch
- Technology modernization
- Technical project governance
- Media infrastructure evolution

Core Engineering Domains

- UHD / HDR workflows
- Hybrid SDI/IP facilities
- Newsroom & MAM systems
- Playout & automation
- Media networking
- Broadcast DR & resilience
- Cloud & remote production

Service Portfolio

Broadcast Consulting

- TV & radio system design
- Greenfield channel launch
- Studio and MCR architecture
- Technical due diligence
- Technology roadmaps

Project Management

- End-to-end Project delivery
- RFP preparation & evaluation
- Vendor management
- FAT / SAT supervision
- Risk and cost control

Service Portfolio

Media & Infrastructure Transformation

- IP readiness assessment
- Network architecture design
- Cloud broadcast advisory
- Future-state architecture
- Migration strategy

Technical Audit & Optimization

- Broadcast facility assessment
- Workflow optimization
- Capacity planning
- Technology refresh strategy

Recent Project

Almamlaka TV — National News Channel

Project Period: 2016–2018

Role: Project Manager, PMO

Location: Jordan

PrimeAxis Global's founder, Eng. Hussein Saraireh, played a pivotal leadership role in the successful establishment and launch of Almamlaka TV, recognized as the largest news channel project in Jordan.

The engagement covered full lifecycle delivery—from infrastructure development through to on-air readiness ensuring the channel launched successfully on 16 July 2018 with a future-ready broadcast ecosystem.

Scope of Responsibility

- Led end-to-end project management
- Managed building construction and electromechanical works
- Directed studio infrastructure design and implementation
- Supervised full broadcast technology integration
- Coordinated global and regional vendors
- Oversaw on-air branding implementation
- Ensured delivery within scope, schedule, and quality targets

Recent Project

Almamlaka TV — National News Channel

Technology & Innovation Highlights

- Advanced broadcast ecosystem deployment
- VR and AR-enabled news production
- OTT distribution capability
- Scalable long-term architecture
- Alignment with international best practices

Disaster Recovery & Business Continuity

- Full DR architecture across playout, MCR, newsroom, & IT
- Geo-redundant transmission chains
- Automated and manual failover
- Hybrid on-prem and off-site recovery
- Regular DR simulation and validation
- Integrated business continuity framework
- Full operational runbooks and training

Project Outcome

- ✓ Successfully launched — 16 July 2018
- ✓ Jordan's flagship national news platform
- ✓ High on-air reliability and resilience
- ✓ Future-ready broadcast infrastructure
- ✓ Robust disaster recovery capability

Why Choose PrimeAxis Global?
